## Welcome to the Masi NGO Forum!

The Masi NGO Forum is an inclusive forum that aims to assist NGO's operating in Masiphumelele to become more unified, relevant and efficient through co-operation, mutual understanding and support. The Forum is an UBUNTU initiative - we work as a team for a more unified effect.

Since 2009 we have had quarterly meetings. In 2012, meetings will take place on May 8th, August 14th and November 13th from 12h30-14h00 at various venues (to be announced). Please contact Nicola Cox of Work for Love or Avril Thomas of Living Hope, details below, for further information.

Masi NGO Forum was the combined initiative of Avril Thomas (Living Hope) and Kalyn Arndt (All Nations) and since our first meeting in 2009 the Forum has been steadily growing. Avril has been a dynamic and skilled chairperson; minutes are taken by various willing and wonderful people and Work for Love maintains the database, sends invitations and reminders and publishes this booklet.

Not only does the Forum serve as a platform for organisations to introduce themselves as well as to network, it has also provided opportunities for discussion and decision-making on important matters concerning the community. There have been occasions when it was possible for the Forum to take a unified stand in making appeals at government level.

In order to allow for more effective discussion and resulting action, various specialised sub-groups have been created. The following sub-groups (described in detail in the booklet) report back to the Forum:

- 1 Early Childhood Development Forum
- 2 Disaster Distress Relief Work Group
- 3 Community Support Network
- 4 Youth Structure
- 5 Feeding Schemes and Hand-Outs

This booklet provides contact details and programme descriptions of Masi NGO's in alphabetical order followed by a contact list of NGO's divided in working areas. At the end of the book you will find a few empty pages for your personal notes, creative ideas and/or any contact details you may wish to remember.

The NGO's listed in these pages are those that complied with a request to complete an information form for the purpose of compiling this booklet. The Masi NGO Forum is absolutely inclusive and any NGO is welcome to supply us with their information. The information published is reproduced in the format provided by the organisation and the editor takes no responsibility for the content.

Our intention is to update this publication annually. With that aim in mind, we welcome any corrections, updates, comments and suggestions you may have.

We would like to extend our heartfelt thanks to the Masiphumelele Corporation who have kindly offered to support the Masi NGO Forum by contributing to the cost of printing this booklet. Any donations towards the booklet will be gratefully received.

I feel privileged and grateful to be part of the development of this enriching initiative.

Thanks to you all.

Nicola Cox (Founder, Work for Love)

Work for Love NPO – Growing the Heart of Community

# SUBGROUPS

## 1 Early Childhood Development Forum

The ECD Forum and Seedlings Project are guided by the Masiphumelele Corporation (Masi Corp) and have grown out of research conducted into the needs of Masiphumelele Educare Centres by ECD Stakeholder Forum and Masi Corp. The inclusive ECD forum meets quarterly to share and discuss information and facilitate collaboration in the area of Early Childhood Development.

ECD Forum aims to:

- Make connections with others working in the same field
- Foster opportunities for collaborations
- Learn from the experience of others
- Identify funding opportunities
- Minimise duplication on ECD so that the work is streamlined
- Address issues associated with registration

Collaboration now exists in the ECD training provision, infrastructure and registration support as well as the feeding schemes.

For more information contact Lyn Scott (083 314 2598) of Masi Corp, jgmet@wol.co.za

## 2 Disaster Distress Relief Work Group

The purpose of this group is to create a working group of individuals and organisations that will actively participate in the coordinated implementation of risk reduction and response measures and programs that can positively impact on the health and safety of the Masiphumelele community.

The primary risks confronting the Masiphumelele community are those of Fire and Health:

### A Projects addressing Fire Risks include:

- Establishment of volunteer fire-fighting groups
- Provision of specialised fire-fighting equipment
- Employment of fire monitors (look-outs)
- Training volunteers and community members
- Fire Safety workshops at home
- Fire Safety workshops at school
- Reducing the external fire-risk
- Exploring effectiveness of latest fire-fighting products, methods, etc.
- Mass care of persons affected by disasters.

### B Projects addressing Health Risks include:

#### 1 SOLID WASTE

- Regular cleaning of canals
- Providing sufficient facilities to dispose of household waste
- Providing sufficient facilities to dispose of bulk waste

- Timely clean-up/collection of bulk waste disposal points eg containers
- Develop effective waste management plan for backyard dwellers
- More efficient waste collection plan for wetland bulk disposal areas

#### 2 TOILET & WATER POINTS

- Ensure adequate installation of accessible toilets and water points
- Effective implementation and management of toilet and tap plan i.e. maintenance, repair and cleaning programs
- Effective implementation and management of night soil disposal plan including backyard dwellers
- Effective implementation and management plan for grey water disposal (backyard dwellers)

#### 3 WASH ROOM FACILITIES

- Ensure installation of adequate numbers of wash room facilities
- Effective management of grey water from taps and wash room and laundry facilities

#### 4 TRAINING AND EDUCATION

- Broad-based, awareness-building campaigns

#### 5 TOPIC-SPECIFIC PROGRAMS

- Personal hygiene
- Grey water management
- Night soil management
- Waste / Refuse management
- Home owner tap and toilet repair.

For more information contact Marti Weddepohl (072 345 3939) of Mercy Net, mercynet1@gmail.com

## 3 Community Support Network

The Masiphumelele Community Support Network initiative is driven by an understanding that the current level of poverty and unemployment crisis exist not only due to insufficient services, training opportunities and jobs but, perhaps more importantly, a lack of awareness of how to identify and access productive assets, skills and infrastructure .

We aim to create an information resource centre and unified community development organisations whose target beneficiaries share responsibility for their ownership and development with the stakeholders. Our approach aims to be people-centred, process-oriented and sustainable.

As established NGO's, we seek to integrate emerging Masiphumelele community-based non-profit organisations in order to collectively upgrade the human development potential of the community and consequently, to uplift the standard of living in this poverty-stricken community.

### This could be achieved through the following:

- 1 Educate by means of capacity-building workshops and trainings especially for emerging NPOs.
- 2 Develop effective institutional infrastructure and databases that promotes inter-sectorial operations, provides better community self-help development services and encourages funding, employment and economic development.
- 3 Provide an information, resource and referral centre that also conducts community based needs assessments and relays the gathered needs information to the NPO Forum.

In order to better address the pervasive problems that lead to poverty and disempowerment we also seek to identify the behavioural norms of those individuals whose unusual practices and strategies have led to greater success than neighbours who have had access to the same resources. How can we discern and promote these positive behavioural norms and how do we make the many available resources more accessible to the wider community?

For more information, contact Mziyanda Mphikwa (084 658 1939) chiefmzi@gmail.com

#### 4 Youth Structure

The Masiphumelele Youth Structure (MYS) represents all the youth of Masiphumelele irrespective of race, gender, disability or religious/political affiliation. MYS aims to ensure that the local youth speaks with one voice and to serve as the first point of contact for information on all youth challenges, programmes, opportunities, activities etc. The structure is supported by the National Youth Development Agency (NYDA) and affiliated to the Masi NGO Forum. Regrettably, at present we lack the capacity to include the youth of Ocean View or other surrounding areas.

For more information or to join this Masi-inclusive organisation please contact Sipho (073 396 4708) siphobanuary@gmail.com

#### 5 Feeding Schemes and Hand-Outs Subgroup

The subgroup's aims are:

\*work together to improve the services that provide for those in need

\*distribute donations in a way that is fair, consistent, appropriate and effective to ensure the empowerment, development and dignity of the receivers

\*discern, determine and promote positive community behavioural norms

\*taking into account that food aid has a short duration and is not sustainable, to design a plan to wean the community off food/hand out aid

For food, in-kind and jumble donations as well as distribution queries, please contact Denise Klassen (021 7855 198) at the Pink House in Masiphumelele denise.klassen@cwd.org.za

## ORGANISATIONS IN ALPHABETICAL ORDER

### AFRICAN ENCOUNTER

Address from which organisation works: 96 Beach Rd, Noordhoek

Organisations phone number: 021 7891250

Organisations website: [www.africanencounter.org](http://www.africanencounter.org)

Contact person at organisation: Michael Massingham

Position held by contact person: Managing Director

Contact person's phone number: 021 7891250

The Work for Love NPO's objectives are to:

- Promote a culture of mutual collaboration, understanding and celebration amongst the previously divided communities in South Africa.
- Sustain the founding values of self-development, co-operation and respect for the spiritual striving that is central to the Waldorf educational impulse.
- Initiate and support social programmes and projects that build on the needs, knowledge and experience present in the local communities
- Recognize and develop individual/community resources and capacities and to facilitate their support of each other.
